

# What is My Vitals?

My Vitals is the cutting edge of medical technology that is the perfect solution for screening people. It is a safe, reliable and inexpensive method that lets you gauge different vitals.

**10 000**  
START-UPS  
A NASSCOM initiative

**VIT**  
Vellore Institute of Technology  
Established by Government of Tamil Nadu in 1984

An initiative funded by Nasscom, designed & developed by Mellon Ai, My Vitals is part of Make In India project that is technologized along with Vellore Institute of Technology. All our sensors are made in Japan & South Korea.

# How does My Vitals work?

The first and only portable device to integrate an Oximeter & a Thermometer. My Vitals is fully automated thereby, eliminating the need for screening different people with dedicated personnel.

The device reads vitals such as Oxygen Saturation, Heart Rate & Body Temperature in just 15 seconds. With an inbuilt 3.5" LCD screen for better visibility, the results will be displayed along with your 'Risk-Status' making the process hassle-free. All the data that are stored in the device can be shared easily with the click of a button, through WiFi sharing. Runs on standard 220V powerline.

Your Vitals :	
O2 Saturation	98
Pulse rate	70
Body Temperature	98.64
Risk Level : Low	

# How safe is My Vitals?

One of the safest devices in the market, My Vitals uses a **fully automated Ultraviolet Sterilisation Mechanism** that engages after each use. Our system integrated adhering to **ICMR guidelines ensures 99.9% germ elimination**. The device is easy to mount on a wall and is solid enough to prevent any kind of theft.

## Why choose My Vitals?

My Vitals is the perfect solution for easy screening of Covid-19 symptoms, be it public places or organisations. Being compact, affordable and easy to install makes our device an indispensable tool in our fight against tracking vitals with as minimal risk as possible. Also, having a full metal body certainly boosts our durability to face any adverse situation. Along with a Calibration Certificate, free installation and service calls, My Vitals comes with a one-year warranty as well.
